THIS WAY →

- What job sectors can you think of? (Finance, technology, education, business, entertainment, sales, public service, military, health, law, etc.)
- What jobs can you name from each sector?
- Think of your current job (or if you are a student, think of your education). What do you like about it, and what don't you like about it?
- What are some dream jobs you would like? What sectors are they in?
- Would you like to work in a team, be your own boss, or be someone else's boss?
- What factors do you consider when thinking about your dream job?

Find a partner and select a real company you will represent. You and your partner should take turns playing the part of the hiring manager and the job candidate, interviewing each other.
